

SKILLS

Languages	Javascript, Next.js, React.js, Django, Python, C, SQL
Tools	GitHub, Firebase, MYSQL Postgre Sql

PROJECTS

Fitness Management System

- Created a personalized fitness and diet recommendation system using **React.js**, **Django**, and **PostgreSQL**.
- Suggested daily health plans based on user input and tracked daily progress and check-ins.
- Integrated charts and user dashboards for visualizing fitness metrics and improvements over time.

SkillBridge – Educational Support Platform

- Built a full-stack platform using **React.js** (frontend), **Django** (backend), and **MySQL** (database).
- Managed student profiles, syllabus tracking, subject-wise notes, and educational YouTube playlist links.
- Designed admin panel for content management and implemented RESTful APIs for efficient data flow.

Concert Ticket Booking App

- Developed a responsive web application using **React.js** and **Firebase**.
- Enabled users to browse concerts, book tickets, and view booking history.
- Implemented real-time database features and Firebase Authentication for secure login/logout.

EXPERIENCE

Harsh Hasthkala (Next.js Developer)	01/2025 – Present
<ul style="list-style-type: none">Next JS based e-commerce website components, that are dynamic and responsive in nature. Reduced js size to improve page performance and user navigation experience by 25%.Created seamless SEO campaigns via Google Campaigns, making the site more visible online with 20% increase in search ranking and organic web traffic levels.Utilized Firebase for backend operations — database, authentication and hosting thereby increasing reliability by 30–35%.	
Orange-Bit (Web Developer Intern)	09/2024 – 11/2024
<ul style="list-style-type: none">Built a Scan App – Attendance System Web App using React+ Firebase, where employees check in and check out, allowing management to accurately track working hours and geo-locations.Developed 20+ dynamic and reusable components for client projects, enhancing user experience and functionality, delivering 100% of projects on time and exceeding client specifications.	

EDUCATION

B.TECH. in ELECTRONICS AND COMMUNICATION ENGINEERING – FINAL YEAR	2022 - 2026
Baderia Global Institute of Engineering and Management	

CERTIFICATIONS

Microsoft: Ambassador Challenge Git,Github and Copilot	Certificate	May	2024
Cisco NetAcad: Python essential 1	Certificate	March	2025
Cisco NetAcad: Python essential 2	Certificate	March	2025
Cisco NetAcad: Cybersecurity Essentials	Certificate	March	2025
Goldman-sachs: Software engineering simulation	Certificate	March	2025

ACHIEVEMENTS

- Qualified **TCS NQT** (2025) with strong performance in Cognitive Skills: Numerical (75.11%), Reasoning (71.79%), and Verbal Ability (60.10%).
- Participating in **Google Cloud Arcade** (Apr–Jun 2025) to enhance skills in Google Cloud Platform (GCP), including Looker, data analytics, and cloud services in which I earn more than 50+badges by Google cloud.
